It is stated by friends of William J. Bryan, who are also on good terms with President-elect Wilson, that while no mention was made at Saturday's conference, in Trenton, of the Nebraska as a possible member of the cabinet, the suggestion was thrown out that the Commoner could do great service to his party and the nation as Governor General of the Philippines. Bryan, it is said, did not commit himself one way or the other.

The Academy of Natural Science has decided to send N. A. Hillsbury, the curator, to the Hawaiian Islands to search for "blue blooded" snails. Doctor Hillsbury believes that since the Hawaiian Islands are so far from the mainland it will be possible to find a greater variety of these snails since they are not devoured there to any great extent by rats and other animals. These mollusks are better known as tree snails. They are said to exert a wonderful influence on certain animals and Hillsbury, the curator, will investigate them.

The long-abandoned race and motor track will be in full swing again in the historic town of Tia Juana, Mexico, by the first of next June if the promoter's plans do not miscarry in the meantime. The story has been verified by dispatches from the Mexican capital, which state that the necessary concessions have been granted by the government and now it remains for the promoters to install the plant and begin operations.

Editor P. McCollough Dick, of the Philippine Free Press, has wound up a busy fortnight here conferring with political leaders of both parties as to the future of the Philippines and Hawaii. Mr. Dick had a long talk with President Taft, Secretary of War Stimson and Brigadier General McIntyre, of the bureau of insular affairs. During the coming week he will see President-elect Wilson and W. J. Bryan. He speaks glowingly of the progress of Uncle Sam's "Pacific possessions."

Baron Charles Hardinge, Viceroy of India, was the victim of a bomb explosion in this city yesterday, while making a state entrance into the new capital of India, which was once the capital of Mongol India Empire. Sir Charles was immediately removed to the state hospital where his injuries were attended to, the extent of which are not as yet known. It is asserted that emissaries of the Young India party are responsible for the outrage. The act has caused the greatest commotion in the city.

The Paris police seem to have discovered a connection between the blackmailing threats mailed to President-elect Wilson and the terrible Chardon murder mystery, which has absorbed the interest of Parisians and French people generally for several weeks.

It is the theory of the head of the Surete that a murder trust is in New York blackmailing the rich, and dealing out death to the victims if they are not forthcoming with the money requested.

The headquarters of this terrible organization is believed to be London, but the more active branches are located in Paris and New York.

A notorious Frenchman, a sort of Arsene Lupin, is mentioned as the head of this international murder trust.

The two new British dreadnoughts being built upon the Clyde will be the latest word in big battleships. They are to displace 35,000 tons each, having turbine engines of 80,000 horsepower, developing a speed of twenty knots, and carrying eight fifteen-inch guns, capable of penetrating standard armor within hitting distance. Winston Churchill personally reviewed the plans for the sea monsters of the deep.

Mrs. Dillingham of Honolulu, who is here with her mother, Mrs. Charles Adams is the center of Christmas gaiety on the North side. Mr. Dillingham is expected to join the family early tomorrow. He will play Santa Claus for the benefit of a number of Chicago's society folk on Christmas Eve. At the first assembly ball held recently Mrs. Dillingham held a regular court and made the one particular success of the classic affair.

Gaston A. Akoum, director of Luna Park here, and his brother, Ferdinand Akoum, who has succeeded Oscar Hammerstein at the London Opera House, which he has converted into a vaudeville and moving picture house is understood to be arranging a round-the-world vaudeville circuit which will take in Honolulu. The Akoums are in negotiation for new park sites in Europe, Asia and the United States. Both brothers were born in San Francisco. It is expected that their circuit will be placed in full swing as soon as the way is made easier by the opening of the Panama Canal. A representative of the syndicate in control will shortly visit Honolulu.

M. Poincare, French minister of foreign affairs, is said to be strongly in the lead among the candidates for the presidency in succession to M. Fallieres. The election takes place January 17.

According to department officials, who are unwilling to be quoted, the reason why the government is rushing defense preparations at Pearl Harbor is to be of sound in the vexed Mongolian situation, and not because of fears that Japan is meddling in Mexico. It is stated that President Yuan Shih-Kai has appealed to the United States through Minister Calhoun, not to see the "open-door" policy guaranteed by McKinley and John Hay vio-

lated through the intrigue of Russia and Japan. It is understood that President Taft and Secretary of State Knox are watching the Mongolian developments in China and that certain protests arising out of Japanese acts in Manchuria are also bringing investigation. If the facts are as alleged, it is expected that a United States remonstrance will be conveyed to Tokyo and St. Petersburg, while at the same time China will be formally advised that the United States is absolutely determined to uphold the policy of the "open door" with a friendly interest in the integrity of China.

The rise in stocks continued at the opening of the New York market today and there was a good demand for issues of all classes. The largest gain was scored by Mexican Petroleum, which rose one point, and copper shares were again in some demand. American Smelting advanced 1/4 and Amalgamated and Utah a point. Canadian Pacific was 1/4 higher. Lehigh Valley was 1/4 and American Can and California Petroleum a point higher. Prices climbed until a wide assortment of stocks made a gain of a point or more. Union Pacific preferred showed unusual activity and rose 3 points. The improvement was taken advantage of later to market stocks, and the whole list fell back sharply. Southern Pacific, which had lagged in the general movement, broke 1/4 below yesterday's close. The market closed steady. Bonds were irregular.

One more warning will be given President Madero of Mexico to protect life and property of Americans in his Republic, and if it goes unheeded the United States will act. This admission was made here today by a State Department official. The State Department was advised today that bandits yesterday sacked the San Isabel ranch and assaulted two American women and maltreated two American negroes. Hundreds of Americans are abandoning their property and fleeing for refuge to points inside the Federal lines. More than 1500 miners, the State Department is informed, are now on strike at the Green copper mines, in Cananea, where desolatory fighting and rioting are in progress and conditions are critical. The Mexican police on Thursday fought a great mob which surrounded the smelter and succeeded in repulsing them.

The town of San Marcial, fifty miles south of Hermosillo, Sonora, has been completely wiped out by Yaqui Indians, practically every inhabitant being murdered, according to a belated dispatch received here today. The population of the town was more than 1000. According to the dispatch the Indians, five hundred strong, besieged the village Wednesday. The inhabitants resisted until Friday morning, when their small supply of ammunition was exhausted. The Indians paid no heed to white flags which were displayed and rushed through the streets butchering and looting. No mention was made in the dispatches of the American residents. The American quarters lay in the hills, just outside the town proper and hopes are high here that all Americans escaped. The attacking Indians are believed to be a regiment organized and armed by the Federal government during one of the recent revolutions. They have attacked and looted several villages in the last year, but never before had attacked so large a town as San Marcial. San Marcial was the center of the coal mining industry of Sonora and much American capital is invested in that district. Mexican Federal officials at Agua Prieta, opposite Douglas, were loth to discuss the massacre but admitted that they have received reports that Federal troops are being rushed to the stricken village from Hermosillo. The officials at Agua
